The lesson for this session was reported speech. The examiners commented that the classroom management was done well and the teacher talking time and the student talking time was well balanced as the previous session. And the students were also appreciated for their active participation. The examiners advised not to conduct dragging activities because the activities that I have prepared for this session was quite lengthy. Also the video clip that was shown for one activity was a lengthy one and the students couldn't grasp the meaning easily. Thus it was advised to select small but effective activities.
